## ABSTRACT

This session will be of interest to both forest pathologists (Research Group 7.02) and entomologists (Research Group 7.03) that participate within Division 7. We will review the activities that have occurred within the Division over the past year and will provide an update on future activities, including webinars and conferences, that are planned to take place during the remainder of 2021 and into 2022. The content of the session will be repeated three times, with a Division Deputy, Research Group Coordinator or Deputy taking on the role of local host for the session.
