ABSTRACT

This session will provide a brief overview of the IUFRO Research Unit 5.15.00 Forest Products Culture together with its activities and events. The coordinators and deputies will then discuss the ongoing and future projects for the potential cooperation with other research units, working parties and organizations. The session greatly welcomes online participants to join the discussion and explore further opportunities for future development.

KEYWORDS

- Forest Products
- Non-wood Forest Products
 - Forest Resources
 - Wood Processing
- Forest Products Culture

SPEAKERS

Howard Rosen - USA

Howard Neal Rosen has a PhD in Chemical Engineering from Northwestern University. He resides in a suburb of Washington, DC, USA. He spent 35 years in forest products research for the US Forest Service before retiring in 2006. His early research was in wood dimensional stability, drying of wood, and wood use for energy. He then went into administration overseeing forest products research in general. He is presently Chairman of the World Wood Day Foundation and Vice President of the International Wood Culture Society

Charlotte Lee - USA

Charlotte Chia-Hua Lee is operations manager and research fellow of International Wood Culture Society (IWCS), and presently an editorial board member of *International Journal of Wood Culture* and the coordinator of IUFRO 5.15.02 Non-Wood Forest Products Culture. Her work has involved promoting multidisciplinary platforms for the interests in the cultural perspectives of wood and non-wood forest products and carrying out the communications and operations for the programs of IWCS and the World Wood Day events since 2011.

Ping Yang - Japan

Ping Yang has a Ph.D. in Wood Science from Kyoto University. After received the Japan Wood Research Society Progress Award for her doctoral dissertation on Computer Simulation of Deformation Behavior and Stress Distribution in Wood-based Composites, she served one year as a research fellow of the Japan Society for the Promotion of Science. She is now a professor in the Faculty of Education, Kumamoto University, has been a teacher educator in Technology Education on Materials and Processing for over 28 years. She is a trustee of the Japan Wood Research Society, Kyushu Branch, and published more than one hundred papers in journals.

PROGRAM

1. Introduction of the Research Unit and activities 8:00-8:10 UTC
 - Research Group 5.15.00 - Forest Products Culture - Howard Rosen
 - Working Party 5.15.01 - Wood Products Culture - Howard Rosen
 - Working Party 5.15.02 - Non-wood Forest Products - Charlotte Lee
2. Theme Based Presentation 8:10-8:25 UTC
 - Getting youth to appreciate forest products culture - Ping Yang from Kumamoto University in Japan
3. Follow up Discussion 8:25-8:30 UTC
